

10th Young Researchers BNCT Meeting

26-29th September 2019 Helsinki, Finland

SPONSOR LETTER

24.4.2019

VALUED SPONSORS

The 10th Young Researchers Boron Neutron Capture Therapy Meeting (yBNCT10) will take place in Helsinki, Finland, September 26 – 29, 2019. The congress is organized by the Finnish Society for Neutron Capture Therapy (FSNCT, <http://icnct16.org/fsnct>).

Year 2014, FSNCT organized the 16th International Congress on Neutron Capture Therapy (ICNCT16) in Helsinki. The congress was very successful and attracted about 200 international scientists from Europe, Asia, the Americas and Australia. The meeting covered all research aspects of the Neutron Capture Therapy, an emerging radiation therapy for cancer.

The Young Researchers BNCT Meeting is held bi-annually and is primarily targeted to young researchers, including medical doctors, physicists, chemists, and biologists, who are engaged in various types of research related to BNCT. The meeting regularly attracts over a hundred international scientists.

The timing of this years' meeting is optimal, since the Helsinki University Hospital is opening a new BNCT treatment facility in the main hospital campus area. It is the world's first commercial accelerator based BNCT source that has been installed in an hospital environment. Visits to the brand-new facility will be one of the highlights of the meeting. More information can be found in:

https://www.hus.fi/en/about-hus/Hospital_areas/Comprehensive-Cancer-Center/Pages/BNCT-Project.aspx

The venue and program of the meeting are designed to provide many networking opportunities between sponsors and delegates. It is the best opportunity for new collaborations and provides access to great young minds.

Our goal is to have a successful and inspiring meeting and in order to achieve this, we are sending out this inquiry for corporate sponsorship. Industry support is essential to produce a first-class program.

Please find attached further information on the sponsorship opportunities. Your consideration of the yBNCT10 sponsorship program is greatly appreciated. We encourage you to contact us soon to ensure the best choice for your company.

Yours faithfully,

Dr. Hanna Koivunoro
President of the organization committee
